We left the town hall and drove our town roads, taking notes and reviewing road conditions. After touring and reviewing our roads, we return to the town hall to discuss the conditions that we viewed. We are looking at several roads to move forward with this year. Jamie will start to get some ideas of what our projects will cost this year, so we can bid them out.

*Some other ideas that came up were to look into a second full time person.

*To look at ideas to move forward with a cold storage building, that was brought up at the annual town meeting.
