\*Discussed the passer ratings and road work projects for 2022 and future.

Roger setup a video to review road conditions and work that needs to be done, The board decided that our focus should be on saving and improving road surfaces for this year. We also reviewed roads that need to be rebuilt and where gravel needs to be added, as always, we have more projects than money.

At the next board meeting we will have some pricing on crack fill, chip seal, and spray patching, so we can advertise for our road projects.

\*Discuss Dump Truck – Bill asked the board to decide on a size of a truck, in the past months that we have talked about the truck, we have been all over with what size truck we should invest in, this makes it hard to price out or compare apples to apples. The board has decided to focus on a tandem axle Dump truck.

Motion to adjourn 1<sup>st</sup> by Ole, 2<sup>nd</sup> by Scott, passes @ 7:50pm
